1051H 2020FA: Week #08

Wesley Burr

04/11/2020

Week 08

Schedule

- Friday 6th - 15th lecture (t distribution, linear model hypotheses) posted

- Monday 9th - 16th lecture (more hypothesis testing) posted

- Tuesday 10th - in-person overview of 16th lecture, plus commentary, Q&A

- Tuesday 10th / Wednesday 11th - 8th in-person workshop - linear models

There is a PDF posted on Blackboard with full details of the entire semester, including the schedule for the second stretch of 6 weeks **after** Reading Week. Please review it, and add reminders in your calendar.

To Do List

- get caught up on lectures, watch Lecture 15 (today) and 16 (Monday the 2nd) asynch version

- finish your readings of Chapters 5.1 and 5.2

- finish WeBWorK Assignment #07 for Tuesday the 10th

- get started on R Assignment #3 (due on the 17th at 5:00pm)

Readings for Next Week (to go with Lectures 15 and 16)

- OpenIntro Statistics - Chapters 5.1, 5.2, (some) 5.3; 8.3
- The Book of R - Chapter 5.2 (entire)

Other Details?

- TA and prof office hours are back on
    - check the schedule on Blackboard
    - use them!
    - Teams is the fastest way to get a response
    - on there everyday, just DM.
